

An Update Regarding Coronavirus (COVID-19)

March 16th, 2020

To our valued customers,

In these uncertain times, the safety and well-being of our customers and employees remains our top priority. As the Coronavirus continues to affect our communities, we want to share some immediate steps taken to help keep our customers and employees safe and healthy.

Our teams are closely following the guidelines from the Centers for Disease Control (CDC), the World Health Organization (WHO), and other local and national health organizations. We continue to receive the most updated information and we have taken the following actions to date:

- We are recommending all employees to take precautionary health measures, including frequent hand washing, social distancing, staying home when sick, and pausing all non-essential domestic and international business travel.
- We are monitoring all Qspac warehouses to ensure they are regularly cleaned and sanitized.
- We are increasing our inventory levels so that there is no disruption to your supply chain.

Also, we would like to take this opportunity to inform you one more time that based on CDC's information on its website (<https://www.cdc.gov/coronavirus/2019-ncov/faq.html>), there is no evidence to support transmission of COVID-19 associated with imported goods and there have not been any cases of COVID-19 in the United States associated with imported goods.

Thank you for being part of our Qspac family and trusting us with your all your laminating and packaging needs. We remain committed to the safety and well-being of you and your loved ones.

If you have any questions or concerns, please contact us at 877-407-7722
